

Turkish in contact Workshop

Monday 18 March 2019

The workshop aims at bringing together researchers who study multilingualism and Turkish in contact with other languages, both at the level of contact induced language changes and at the level of multilingual practices as codeswitching between Turkish and other languages.

This workshop is part of the SeDyL Axe 2 “Multilingualism and Language Contact” activities and LABEX EFL Strand 3 – LC1 “Multifactorial analysis of Language Contact and Change”.
